Fort George, British Columbia

The geographical centre of an Inland Empire of undeveloped wealth of Forest, Stream, Mines and Agriculture. The strategic point commanding over 1000 miles of Inland Navigation, and in the direct path of all interior Railway Surveys. 100,000 Horse-power within the easy transmission distance of 16 miles. All will contribute toward the upbuilding of a commercial and manufacturing metropolis that will be the most substantial investment ever placed before the investor.

REASONS

Agriculture Mines Forests Streams

In a country where fruit and timber thrives; where rust, hail or storms never have been known to injure the crop returns; where the rainfall has always been sufficient, must naturally be adapted to the successful pursuit of Agriculture in all its branches. Agriculture alone in British Columbia produces \$10,000,000 yearly.

The most extensive Coal Deposits in the entire world are situated in British Columbia, as well as an untold wealth of Iron, Gold, Copper, Lead and Silver. Fort George is the city that will command the entire wealth of the far-famed Cariboo District, because its situation centralizes all commerce at that point. The mineral wealth alone of the Cariboo will build a second Spokane.

The largest and most compact body of Timber in the world is situated in the interior of British Columbia, and can be reached by the streams that radiate from Fort George. There is already a production of \$12,000,000 per year from Timber alone, which will increase in immense proportion as fast as facilities to carry it to Fort George can be provided, where it can be finished and manufactured.

British Columbia is famed the world over for its wealth of fisheries and its salmon. The richness of streams has netted the Province \$114,000,000. Fort George, situated at the junction of the greatest waterways of the interior, will surely reap a handsome income from this source, and the splendid facilities provided by inland navigation will figure largely in the development of a future city.

That Fort George will be a great distributing centre is admitted by all. It is only necessary to note the following distances and natural reasoning will suggest the only conclusion.

Fort	George	to	Vancouver	450	miles
4.6	"	"	Prince Rupert	464	
			Edmonton		
6.6	6.6	"	Dunvegan	320	6.6

STRATEGIC POSITION

For reasons of comparison, take Port Arthur, Ont., as the nearest port on the east, and Vancouver, B.C., as the western outlet. Dunvegan, Alta., may be taken as the centre of the Peace River District.

From Port Arthur, the water port on the east, to Dunvegan, is 1560 miles. From Vancouver, the water port on the west, to Dunvegan, is 770 miles. Vancouver has the advantage by a

full 790 miles, or more than half the distance between Dunvegan and Port Arthur.

Vancouver.

The natural jobbing point for the Peace River District from the Port Arthur side is Edmonton, Alta. Edmonton is 360 miles from Dunvegan, and 1200 miles from its water base, Vancouver. The natural jobbing point for the Peace River District from the Vancouver side is Fort George, B.C. Fort George is 320 miles from Dunvegan, and 320 miles from its water base,

Entered according to Act of Parliament of Canada, in the year One Thousand Nine Hundred and Twelve by Henderson Directories Alberta Limited, in the Office of the Minister of Agriculture.

Preface

We present this the eighth edition of Henderson's Greater Edmonton City Directory. This volume embraces the area of Greater Edmonton, covering the territory of South Edmonton (formerly Strathcona), North Edmonton and Calder.

This Directory is a faithful record of the city's growth and progress, and furnishes exact data of its measure of prosperity which is unerringly shown by the increase in population, businesses and professions shown by the pages of this book. The enumeration work has all been done by an experienced and trained staff.

It is customary for Directory publishers to give an estimate of the population of a city based on the number of names the Directory contains. We use the multiple of 2.50, considering it conservative for Edmonton. But the publishers wish it to be understood that their figures deal with Greater Edmonton and must be regarded as an estimate only. It is not a census.

Population of Greater Edmonton

This volume contains 20,296 individual names, which, multiplied by 2.50, shows a population of 50,740.

The publishers thank the public for their courtesy in supplying information and the subscribers for their liberal support in the production of this volume.

Very truly,

HENDERSON DIRECTORIES ALBERTA, LTD.

Tune 1912.

Greater Edmonton

Incorporated into one body, the City of Edmonton, which comprises the old city limits, that portion of the country formerly known as Strathcona, but now designated "Edmonton South," and that section called North Edmonton, lies in a most picturesque and elevated position, between which run the waters of the mighty Saskatchewan, with its many reserves for developing power.

The distributing centre for Northern Alberta, with the famous Peace River Country at its back, the city is now operated by the three great Railroad Systems which are nearing completion, in being connected from coast to coast, via the Yellowhead Pass of the Rockies. The early part of 1913 will see finished the high level bridge of the Canadian Pacific, to facilitate traffic between the north and south sides of the city, and to, immeasurably, help that railway in its work of peopling the north country.

The Corporation owns and operates its own Water Service, Sewerage System, Electric Light and Telephone System. Also owns and operates the Street Railway.

Natural gas has been discovered at Morinville, while, further north, immense reserves of petroleum, tar, asphaltum and salt have been unearthed.

The City has fifteen Banks, twenty-two Hotels, three daily, five weekly and three monthly Newspapers, four Saw and two Flour Mills, two Brewery Plants, Aerated Water Factory, two Packing and Cold Storage Plants, Woodenware Factory, three Steam Laundries, and two Brick Yards; also Tent and Mattress Factory, and Iron Foundries.

Most of the Eastern manufacturers are represented in the City, either through commission brokers or with branch warehouses.

Edmonton, being the capital of Alberta, has the Alberta Provincial Government buildings. The new Government buildings, when finished, are expected to cover an expenditure of about one and a half million dollars.

WATERWORKS

Since the bonding of Strathcona into Greater Edmonton, the waterworks system has undergone considerable improvement, by a large amount of money being laid out to make it as near perfection as possible. The value of this work will be appreciated by builders who have begun to erect houses in outlying points of the city.

TELEPHONE SYSTEM.

Offices and main exchange building, 242 McDougall Ave. All equipment, of the latest type, is made by the Automatic Electric Co., Chicago, with 12,000 capacity and 4,000 straight lines installed. On outside work, a combination pole carrying electric light wires at top and telephone cable lower down, is used. There is, approximately, 7 miles of underground subway and 40 miles of aerial cable. Distribution is made in cable and construction of latest and most approved style. Direct connection is given subscribers to all Government toll and rural lines.

CEMETERIES

Edmonton has, now, three cemeteries, one situated about a mile north of Jasper Avenue, near the St. Albert Trail and consists of six acres, another being in Edmonton South, while the third, the Roman Catholic Cemetery, is situated immediately adjoining the first-named, and is under the charge of the St. Joachim Mission.

GAMEWELL FIRE ALARM SYSTEM—NON-INTERFERING STREET BOXES

Robert W. Broder, Supt. Fire Alarms. Office No. 1 Station

To Ring an Alarm

Break the glass, turn the key and open the outer door. There is a brass hook projecting from inner door, pull down the hook once only and let go. Failing to hear the fire bell, immediately go to the nearest telephone and inform the Central Office where the fire is. Always remain or leave someone at the box until Department arrives.
